FALL PRICE LIST 1924

GRAPE VINES

Fruit Trees, Small Fruits and Ornamentals

WEST HILL NURSERIES, Inc.

M. E. ROESCH, President,

FREDONIA, N. Y.

We recommend Fall planting of all hardy trees,
shrubs and plants.

As a rule Fall is much the best time for planting hardy trees, vines and shrubs and we can and do ship them all through October and November. We recommend, however, that they be left standing in the nursery up to October 15th to ripen and harden. When planted in the Fall, the cut ends of the roots callos by Spring; the winter's rains and snows settle the soil closely around the roots; and the tree is ready to start to grow early and vigorously; thus making a much larger growth the first year than if planted in the Spring. Do not trim the tops of the trees in the Fall, but early in the Spring. It is also well to bank the soil high around the trees and plants as a protection to the roots and to prevent too much swaying in the wind. This applies to all stock offered herein except strawberries, black raspberries, dewberries and perhaps peaches. These do not do as uniformly well, planted in Fall, as other stock.

PERENNIALS by all means should be planted in the Fall as they start to grow in the Spring as soon as the thawing of the ground permits the young shoots to come through. These wonderful, if old fashioned, plants should be in everyone's garden. They give the most for the least care of anything you can plant. They come up each Spring to surprise and please you with their beautiful foliage and wonderful flowers. We have an extra fine lot of plants this Fall, especially Peonies, Phlox and Iris.

Take advantage of our 10 rate by buying 5 of a kind.

Our shipping seasons opens October 15th and for 4 to 6 weeks you can safely do your Fall planting. Send us your order now. We will ship at the proper time and you will avoid the disappointment of "Mr. Put-it-off."

See Special Offer on back of order blank.

Send for our 64-page catalog describing all the trees and plants priced in this list.
